# Advanced Diploma Breakdown

The 310 hour Level 5 Advanced Diploma is broken down into lessons and units to make the content easier to digest.

You'll have interactive quizzes throughout the Advanced Diploma to check your progress and you can attempt these as many times as you need.

Here's a summary of the modules you'll complete in each section:

## Principles of Teaching English Grammar

### UNIT 1

By the end of this module, you'll know your present continuous from your present simple tense. Most of all, you'll be familiar and confident with grammatical terms.

You will improve your understanding of basic grammar and get the knowledge you'll need to communicate language rules to your students.

## How to Teach English Vocabulary

### UNIT 2

Did you know that there are around 171,000 words in the English language?

Don't worry, you'll only be asked to teach a few hundred of those!

You'll study the tools to teach vocabulary and use them effectively so that your students can use it in the right context.

## Principles of Teaching Methodologies

### UNIT 3

Learn the importance of understanding WHY your learners are studying English.

By the end of module three, you'll also know the most commonly used methods of teaching English as a foreign language.

## Teach Reading & Listening Skills

### UNIT 4

These are called 'receptive skills' because the student is receiving language.

Discover the most effective ways to engage students in reading English and how to comprehend what they listen to accurately.

# Advanced Diploma Breakdown

## Teach Writing & Speaking Skills

### UNIT 5

These are called 'productive skills' because students produce language.

You'll learn plenty of useful ideas and activities about how to get your students up on their feet and chatting to you about hobbies, politics or story telling.

## Teach Pronunciation & Phonology

### UNIT 6

Here you will master the modern techniques to help your students sound as fluent as possible.

This is the primary reason that they want to learn English from you.

## Use Teaching Aids Effectively

### UNIT 7

Think: Podcasts, videos and flashcards. TikTok, Buzzfeed and Spotify.

Learning what 'ingredients' are right for each lesson will help you create compelling, relevant and useful lessons either online or in the classroom.

## Plan Engaging Lessons That Work

### UNIT 8

Preparation is key to all successful English lessons.

Become skilled in designing engaging lesson plans for all levels and all class sizes including one-to-one or online lessons.

## Teach English to Adults

### UNIT 9

Teaching adults to speak better English can be life-changing for them, their family and career.

## Teaching Young Learners

### UNIT 10

Understand how to optimize real or virtual teaching methods and management skills to educate eager young minds.

This will include tried and tested fun and engaging strategies to inspire 4-16 year olds to keep learning – because you'll be such a cool ESL teacher!
